Experience

Postdoctoral Research Fellow

Harvard University

Jun 2019 - present

Cambridge, MA, USA

📍 *Harvard John A. Paulson School of Engineering and Applied Science*

- Main research topic: development and evaluation of inflatable soft wearable robots for upper-limb assistance.
- Affiliated with the Wyss Institute for Biologically Inspired Engineering.
- Main responsibilities:
 - * Lead research project and coordinate interdisciplinary team (Ph.D. students, occupational therapists, functional apparel designers, staff engineers, visiting team members, undergrads).
 - * First-hand development of the software of the project: sensor estimation, control strategies, virtual interfaces, data logging and processing in real-time.
 - * Assistance in hardware development.
 - * Define and run testing protocols. Process data. Redact manuscripts.
- PI: Prof. Conor J. Walsh - Lab: Harvard Biodesign Lab

Control System Engineer

General Motors

Apr 2017 - Apr 2019

Turin, Italy

📍 *GM Global Propulsion Systems*

- Control function development and algorithm design for GM diesel engines sector.
- Main responsibilities:
 - * Define system requirements and software architecture by taking into account legislation, standard, and quality.
 - * Develop system Failure Mode and Effect Analysis (FMEA).
 - * Contribute to definition of calibration methodologies.
 - * Communicate with hardware and advanced tech. communities to develop production-oriented technology.
 - * Assist in troubleshooting subsystem integration, testing and validation (dyno, in-vehicle, roller bench).

Ph.D. in Robotics Engineering

Université Pierre et Marie Curie

Jan 2014 - Mar 2017

Paris, France

📍 *ISIR - Institut des Systèmes Intelligents et de Robotique*

- Main research topic: studying the possibility to induce relearning of motor coordination after a stroke by using an upper-limb robotic exoskeleton.
- Main responsibilities:
 - * Study and control the physical Human-Robot Interaction (pHRI), with a specific focus on the human upper-limb motor control (adaptation, learning, after-effects).
 - * Model, develop, code, and test innovative control strategies for exoskeletons on a Linux-based RTOS.
 - * Define testing protocols and experimental setup. Collect human motion data through encoders, sEMG, and MOCAP. Data processing (filtering, data fusion, statistics, visualization).
 - * Manuscripts redaction and publication.
- PI: Prof. Agnes Roby-Brami

Visiting Pre-Doctoral Fellow

Northwestern University

Oct 2012 - Oct 2013

Evanston, IL, USA

📍 *McCormick School of Engineering*

- Main research topic: trajectory planning and control of a nonprehensile manipulator through hybrid dynamic modelling.
- Main responsibilities:
 - * Modelization of a planar robotic manipulator and dynamic contact modes with an object.
 - * Development of control strategies for nonprehensile manipulation.
 - * Simulation of hybrid sample-based trajectory planning algorithms.
- PI: Prof. Kevin M. Lynch - Lab: NxR - Neuroscience and Robotics Laboratory

Education

Ph.D. in Robotics Engineering

Jan 2014 - Mar 2017

Université Pierre et Marie Curie

Paris, France

- Thesis: *Characterizing the reciprocal adaptation in physical Human-Robot Interaction to address the inter-joint coordination in neurorehabilitation*
- Supervisors: A. Roby-Brami, N. Jarrassé

MS in Control Engineering

Nov 2010 - Oct 2013

Sapienza University of Rome

Rome, Italy

- Final score: 110/110 magna cum laude
- Thesis: *Hybrid Dynamic Nonprehensile Manipulation: Application to a 3-DOF Robot*
- Supervisors: G. Oriolo (Sapienza University of Rome), K. Lynch (Northwestern University)

BS in Automated Systems Engineering

Sep 2007 - Oct 2010

Sapienza University of Rome

Rome, Italy

- Final score: 107/110
- Thesis: *Modeling and Controlling Composability Property in Embedded Systems by applying Hybrid Automata Theory*
- Supervisors: F. Delli Priscoli, A. Fiaschetti

Publications

 Google Scholar: 8 publications (+3 under review), 293 total citations, H-index: 4.  Orcid: 0000-0002-8875-8646.

Journal Papers

7. **Proietti T.**, O'Neill C.*, Hohimer C., Nuckols K., Clarke M., Zhou Y.M., Lin D., Walsh C. (2021) Sensing and control of a multi-joint soft wearable robot for upper-limb assistance and rehabilitation, *IEEE Robotics and Automation Letters* (under review). *Authors equal contribution.
6. Zhou Y.M., Hohimer C., **Proietti T.**, O'Neill C., Walsh C. (2021) Kinematics-based control of an inflatable soft wearable robot for assisting the shoulder of industrial workers, *IEEE Robotics and Automation Letters* (under review).
5. Chu X., Lo C.H., **Proietti T.**, Walsh C., Fukuda T., Au S. (2021) Opposite treatment on null space: avoiding null space towards unified and robust feedback stabilization control of underactuated robotic systems, *International Journal of Robotics Research* (under review).
4. O'Neill C.*, **Proietti T.***, Nuckols K., Clarke M., Hohimer C., Cloutier A., Lin D., Walsh C. (2020) Inflatable soft wearable robot for reducing therapist fatigue during upper extremity rehabilitation in severe stroke, *IEEE Robotics and Automation Letters*, vol. 5:3, pp. 3899 - 3906. *Authors equal contribution.

Teaching & Mentoring

Guest Lecturer *Harvard University*

2020

Course: Physiological Foundations for Bioengineering (BS in Biomedical Engineering)

Undergraduate Students Mentoring *Harvard University*

2019 - 2020

Course: Robotics Projects (BS in Mechanical Engineering)

Responsibilities: Helped in developing research projects, supervised and assisted graduate students during their summer/winter projects in the lab.

Number of mentored students: 2.

Teaching Assistant *Université Pierre et Marie Curie*

2015

Course: Mobile Robotics (MS in Robotics Engineering)

Responsibilities: Prepared, supervised, and assisted 15-ish graduate students in weekly 6-hour lab course. Assistance to final project evaluation.

Honors & Awards

IEEE Engineering in Medicine and Biology Prize Paper Award - 3rd place with [J2] paper.

2019

Personal Skills

Languages

Italian: Mother Tongue | **English:** Fluent - C2 | **French:** Proficient - B2/C1

</> Computer skills

Programming: Matlab/Simulink, C, C++, Python, Java, HTML, CSS, PHP, MySQL

Software: Solidworks, ROS, INCA, Git, LaTeX

OSs: Linux, Windows

✿ **Certifications**

2019 - General Motors Design For Six-Sigma - Green Belt

2014 - "European Computational Motor Control" Summer School - Université de Montpellier 1
